

# KRISTA PROKOPCZYK

■ Full Stack Web Developer ■

## About Me

For the past year I've been immersed in all things code. I've attended two coding bootcamps, building static sites and dynamic web apps for local businesses. Now I'm ready to begin making meaningful contributions to a development team.

What I lack in experience I make up for with enthusiasm, persistence, and endless curiosity! My experience working with technology teams at companies like Orbitz.com and Groupon inspired me to apply these traits to a career I'm passionate about. I'm a creative and analytical problem solver who learns quickly and thrives in fast-paced, agile environments. My extensive professional experience in project management, along with excellent communication skills and an inherently flexible nature, makes me a natural fit with any team. I'm seeking an opportunity as a web developer that will allow me to apply my existing skillset while growing and perfecting my development toolbox.

## Education

Coding Dojo *November 2016 – April 2017*

I learned two full stacks in nineteen weeks, gaining exposure to the entire development process from requirements planning and wireframing to schema design, RESTful routing, and AWS deployment.

- **Python Stack:** Django · Flask · MySQL · ORM
  - **MEAN\* Stack:** JavaScript · Node.js · Express · MongoDB · Angular · Mocha/Chai
- \*Anticipated completion date for MEAN: April 28, 2017

Dev Bootcamp *July 2016 – October 2016*

A nine-week bootcamp focused on **Ruby**, Sinatra, and SQLite3. In addition to the concepts taught at Coding Dojo, heavy emphasis was placed on test-driven development, pair programming, and agile methodology.

## Professional Experience

Oil-Dri Corporation **Executive Assistant to the Chairman, CEO and COO**

*July 2016 – October 2016*

Moved the planning process for the annual sales conference from a manual paper-based system to an online registration and user management portal. I left to pursue an education in web development full-time.

Orbitz Worldwide **Executive Assistant to the CTO and President**

*April 2013 – November 2015*

Supported the CTO and President and their respective teams. Planned and managed annual Global Forums conference. Redesigned tracking and booking system for media travel barter program and managed media outlet barter accounts.

Affinia Group **Executive Assistant to the CEO**

*April 2006 - July 2011 and October 2011 – April 2013*

Moved capital investment project system from paper to online; designed and implemented electronic facility metrics tracker. Served as primary point of contact for all international facilities.

Groupon **Executive Assistant to the General Counsel and SVP HR**

*July 2011 – October 2011*

Overhauled filing system for legal department. After 3 months at Groupon I returned to my former position at Affinia after being aggressively re-recruited by the CEO.

## Technical Skills

### Languages & Frameworks

Python	JavaScript
Django	React
Flask	AngularJS
Ruby	JQuery
Sinatra	HTML5
RSpec	CSS3

### Tools & Concepts

MySQL	Node.js
MongoDB	Jinja2
PostgreSQL	AJAX
SQLite3	JSON API
AWS	REST
Gunicorn	Balsamiq
Nginx	Git/Github
Responsive	TDD
Mobile-first	Bootstrap
MVC architecture	
Pair programming
